

At Chili's, a top priority is always the health and safety of our guests. As part of our commitment to you, our allergen menus are based on product information provided by Chili's approved food manufacturers. Every effort is made to keep this information current; however, it is possible that ingredient changes and substitutions may occur due to the differences in regional suppliers, recipe revisions, preparation techniques, and/or the season of the year. Certain menu items may vary from restaurant to restaurant and may not be available at all locations. Limited time offers, test products, or regional items have not been included on these menus. We have prepared this suggested list of menu options based on the most current ingredient information from our food suppliers and their stated absence of the Big 8 Allergens within these items. Please be aware that during normal kitchen operations involving shared cooking and preparation areas, including common fryer oil, the possibility exists for food items to come in contact with other food products.

All items are listed **as served**, unless otherwise noted. X = Contains Allergen

*** CROSS CONTACT RISK** denotes those items that are fried/contain a fried ingredient. All fried ingredients are cooked in shared fryers, therefore, may be exposed to all allergens and animal product. Though we have highlighted fried items which are at increased risk for cross- contact with other ingredients (allergens and meat), normal kitchen operations involve shared cooking equipment and preparation areas-- contributing to the possibility of foods coming into contact with other foods. Due to these

****VEGETARIAN (V)** denotes items that **DO NOT contain beef, pork, poultry, fish, shellfish or ingredients derived from animals** (e.g. gelatin, chicken broth, animal rennet) *but may contain eggs or milk* . Note: Several of Chili's cheeses are not marked as vegetarian due to the use of animal rennet.
